PROFESSIONAL SUMMARY

AI & Data Science undergraduate with hands-on exposure to AI/ML problem statements, data preprocessing, model development, and evaluation through an Artificial Intelligence internship. Familiar with Python, Java, MySQL, machine learning fundamentals, NLP, and core computer science concepts. Seeking an entry-level AI/ML Engineer opportunity to apply these skills to practical problems and contribute to AI-powered solutions.

EDUCATION

Saveetha Engineering College – B.Tech, Artificial Intelligence & Data Science

- **CGPA:** 7.5 / 10

Good Luck Matriculation Higher Secondary School

- **Percentage:** 80%

TECHNICAL SKILLS

- **Programming Languages:** Python, Java
- **AI & Machine Learning:** Machine Learning Fundamentals, Natural Language Processing (NLP), Data Preprocessing, Model Development and Evaluation
- **Databases:** MySQL, Database Management Systems (DBMS)
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures & Algorithms (Basics), Operating Systems (Basics)
- **Security & Cryptography:** Quantum Key Distribution (QKD), Hybrid Cryptography (Conceptual)
- **Tools:** Git, GitHub, VS Code

EXPERIENCE

Artificial Intelligence Intern – YoungMinds Technology Solutions Pvt. Ltd., Tirupati

- Applied AI/ML concepts to real-world problem statements, including data preprocessing, model development, and evaluation.Gained exposure to production-oriented AI systems.

PROJECTS

Hybrid Quantum–Classical Cryptographic Framework using QKD

- Designed a hybrid security framework integrating Quantum Key Distribution (QKD) with classical encryption and simulated secure key exchange intended to resist quantum-based attacks.
- Analyzed confidentiality, integrity, and performance in comparison with traditional cryptographic approaches.

Streamlining Patient Data Access using QR Codes

- Developed a blockchain-based system concept for secure storage and sharing of patient medical records, with QR-code-based emergency access to encrypted data.
- Focused on data integrity, privacy, immutability, and intuitive workflows for emergency scenarios.
- **GitHub Project Link**

SOFT SKILLS

Problem Solving, Teamwork & Collaboration, Communication Skills, Time Management, Adaptability & Learning Mindset, Leadership

CERTIFICATIONS & CONFERENCE

- Natural Language Processing Specialization – DeepLearning.AI (Sequence Models, Attention Models, Text Processing, Classification & Vector Spaces, Probabilistic Models)
- Introduction to Programming with MATLAB.
- **Conference Paper Presentation – ITAI 2026:** Presented "A Hybrid Quantum–Classical Cryptographic Framework for Post-Quantum Secure Communication" at the 2nd International Conference on Information Technology and Artificial Intelligence, March 21–22, 2026.

ACHIEVEMENTS

- Led a mini project team, managing planning, development, and execution.
- National Service Scheme (NSS) Volunteer.

LANGUAGES

English (Fluent), Tamil (Fluent)
